Point: un letto disegnato dai bottoni

Point: a bed characterised by a distinctive button design

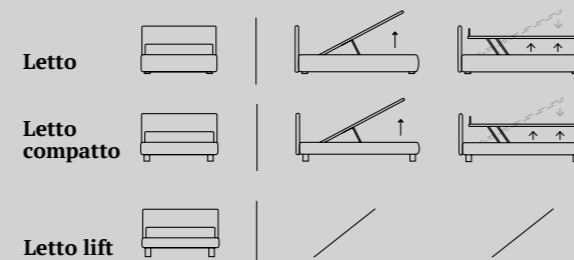

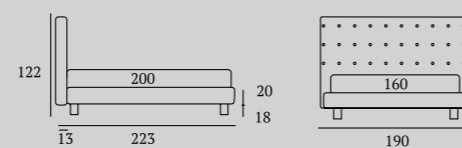

Per trasformare Point basta una semplice intuizione: giocare con i bottoni colorati. La sua rigorosa geometria trova una piacevole sintonia con il piede in metallo Lux, disponibile in tre finiture (bianco, cromo e manganese).

All it takes to transform the Point collection is just a little bit of inspiration, playing with coloured buttons. Its precise geometry strikes a pleasant harmony with the metal Lux foot, available in three finishes (white, chrome and manganese).

Lavorazioni sartoriali

Tailored workmanship

Honey si presenta con l'originale lavorazione sartoriale a bordo libero e trova la sua massima espressione in un'accurata scelta di accostamenti cromatici. I tessuti in questa tipologia di lavorazione giocano un ruolo fondamentale. Morbidezza e irregolarità delle forme sono una conseguenza di trama e consistenza.

The Honey collection is characterised by the original tailored workmanship with an edge-free design, finding its highest level of expression in a careful selection of colour combinations. The fabrics play a fundamental role in this type of workmanship. Softness and irregular shapes are the result of texture and consistency.

Doppia identità per Emby

Emby's double identity

Le sue forme morbide e dolci si presentano in veste contemporanea per interpretare concezioni attuali dell'abitare.

Its soft and harmonious shapes take on a contemporary allure to interpret current living trends.

LETTI CON CUSCINI RECLINABILI

BEDS WITH RECLINING CUSHIONS

Letti imbottiti con testiere regolabili per comode posizioni di relax, abbinate a molteplici configurazioni di giroletto e innovativi sistemi contenitore.

Upholstered beds with adjustable headboards to create comfortable relaxed positions combined with countless bed frame configurations and innovative storage systems.

QUIET - JOIN

Sistema tradizionale nel quale le fodere, che rivestono i cuscini in poliuretano espanso indeformabile con sostegno in multistrato al loro interno, sono agganciate alla testiera tramite cerniera. Per portare i cuscini in posizione relax è necessario semplicemente sollevarli, la loro morbidezza rende decisamente agevole questa operazione senza dover sganciare la cerniera.

Traditional system in which the covers for cushions made in non-deformable expanded polyurethane foam with multi-layer inserts are attached to the headboard using a hinge.

To move the cushions into a relaxed position, you simply need to lift them, while their soft headboard makes it very easy to accomplish this without having to unhook the hinge.

FORM - WISP - ARTY

Caratteristica del sistema è il rivestimento del cuscino che sul lato posteriore presenta cucita una tasca in tessuto ideata per contenere un contrappeso in metallo facilmente removibile per la sfoderabilità.

Questa soluzione permette di movimentare, con semplicità, i morbidi cuscini con sostegno in multistrato per le posizioni relax, tenendoli comunque ben saldi alla testiera. Quest'ultima è realizzata con accorgimenti tecnici che consentono di posizionare il letto alla parete senza interferire sulle movimentazioni dei cuscini stessi.

These beds feature cushion upholstery with a fabric pocket stitched on the back of the bed, ideal for holding a metal counterweight that can easily be removed. This mechanism means that the soft cushions with a plywood support can be moved with ease into a relaxed position, while remaining firmly attached to the headboard. The headboard has been cleverly designed to ensure that the bed can be positioned against the wall, without interfering with the movement of the cushions.

FLUX

Le fodere di rivestimento dei cuscini in poliuretano espanso indeformabile con sostegno in multistrato al loro interno, sono agganciate alla testiera, attraverso delle fibbie regolabili. Questo sistema permette di portare con facilità i cuscini in posizione relax garantendo la stabilità del cuscino quando viene inclinato.

The covers for cushions made in non-deformable expanded polyurethane foam with multi-layer inserts are attached to the headboard using adjustable buckles. This system allows you to easily rotate the cushions into a relaxed position, ensuring their stability when in an inclined position.

JUST - SHARP

Sistema realizzato con particolare struttura metallica rivestita in poliuretano espanso indeformabile che permette di posizionare con facilità e in modo indipendente la testiera in posizione relax.

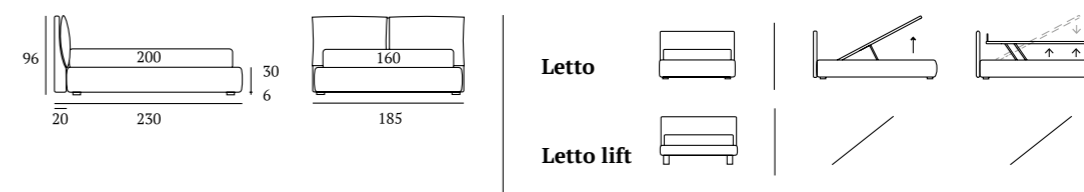

System made using a special metal structure covered in non-deformable expanded polyurethane foam that allows you to easily and independently set the headboard into a relaxed position.

Spazio alla vostra libertà

Room for your freedom

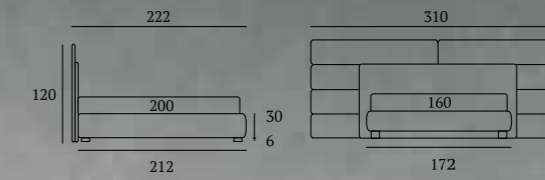

L'impostazione definita dei pannelli facilita il fissaggio della testiera che avviene attraverso binario di sostegno da fissare al muro. Questa soluzione non sfoderabile consente di abbinare tra loro i pannelli mantenendo la massima libertà compositiva nelle scelte cromatiche.

The permanently mounted panels make it possible to fasten the headboard using support rails mounted to the wall. This non-removable solution allows for matching the panels among each other, while maintaining maximum freedom in the choice of colours.
